

Follow these steps for adding a device for the purpose of receiving Alerts and/or Security Codes.

1. Once logged into eBranch, click on “User Options”
2. Select “Change User Devices”.

3. To add a new email address or mobile device, click the “Add New Device” button.

User Devices

Select which features to use with each device by checking the box. Register a device to verify that it is working prior to using the device. Unregister a device to stop using the device for the available features.

Nickname	Type	Address	Alert	Onetime Security Code	Status	Action
Current Email Address	E-mail	l@gmail.com	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Registered	

#3

- Click the dropdown arrow to expand the “**Delivery Type**” field.
- Select “**Text Message**” or “**Email**”
- Create a nickname for this delivery type in the “**Delivery Option Nickname**” field.
- If you chose Text Message, enter the phone number (without dashes) in the “**Phone Number**” field.
- If you chose Email, enter the email address in the “**Email**” field.
- Click the “**Save Delivery Option**” button.
